# Introducing Impact Junkie **Member**

## Others may question it, but you feel it.

That call to something more. That call to do more with what you've been given. To do more in your community and in your world. To see things and go places you only dreamed about but didn't think were possible.

But then it happens. **Suddenly, you are living the adventure, the dream, while helping others live out their dreams.**

Someone will come up to you and say: "You changed my life." And another will say, "I almost gave up and thought about ending it all, but then I came today and I know God sent you here for me."

And you will keep going. What seemed so scary, now seems almost normal. And you start the cycle all over again... but this time with a new group of partners, investors, customers, and friends.

This is your moment. This is where you see lives changed. This is where you are changed.

I remember that feeling. Called to do more with no idea how to get there. Then from Harvard to the White House to the Pentagon. Yet feeling more. Not sure how to access, let alone be part of these life-changing opportunities. Then to palaces, jungles, and millions with a university-level framework.

Now this journey has opened access in places I only dreamed. We are opening these experiences to those who feel the same - ready to love people, go places, and change lives. The world needs more impact junkies.

I look forward to welcoming you as a member and serving this world together.

Let's get after it.

Philip Harding, an impact junkie  
CO-FOUNDER + CEO
